

Testimonials

"We have over one hundred people on staff, so team building communication skills are essential. The Upfront Theatre has provided our staff and management with very effective tools to meet these challenges and have a lot of fun while doing it... our people came away energized and excited to apply these skills at work and in daily life. When your staff looks forward to the next training meeting you know your investment is paying off. Better yet is when you see them actually using the skills at work."

"The improvisational course that I took helped me... I am better equipped to listen and process what my clients are saying. I have already recommended the courses to my employer as trust and communication building exercises.

Thank you!"
